Subject: NSP/Lakefront: Community Input for Acceptability

John,

It took me a bit longer to write up what we discussed. Jane came back early from out-of-town because she is sick, but we have shared voice-mail messages. She let me know today her recommendation for a facilitator. Today, I have come down with an upset stomach, but hope to be OK tomorrow.

Jane and I both expect to be on the conference call with you and Bri Bill tomorrow morning at 8:30AM. Please forward the process information to Bri after you review it. If you have questions you want to address before forwarding it, please call me at home Exemption 5 - Deliberative Process Privilege

Please let us know how we should call in for the call tomorrow.

Thanks,

Kim

Facilitating Public Input on Key Elements of Public Acceptability of Feasible Remedies for the NSP/Ashland Lakefront Contamination Site

January 31, 2007

Kim Bro (Sigurd Olson Environmental Institute) and Jane Silberstein

(University of Wisconsin-Extension, Ashland County) met on January 4th and developed this recommendation for organizing the next three public meetings. Our recommendation addresses the community's request to have community involvement in discussing potential remedies in advance of the completion of the Feasibility Study for the site. Several community members felt it important to have more formal input about the key elements of public acceptability of potential remedies for the site. They requested the opportunity for this input when the Community Relations Plan was being prepared.

It would be difficult to solicit input effectively at a single meeting organized for this purpose. A typical afternoon or evening meeting can be sufficient to generate a list of the key elements of remedies that the community finds acceptable. But the process also requires that the participants be aware of the nature of the problem, the range of feasible remedies and long-range plans for the lakefront and Chequamegon Bay.

It would be possible to arrange an effective input session if the public meetings before and afterward are coordinated with the public input process. Fact sheets and press releases to the community will be needed to encourage attendance and informed input and to show community members that their perspectives were heard and will be addressed in the preliminary ranking of remedies presented in the Feasibility Study.

Even though both Jane and Kim have extensive experience in facilitating community input on a wide range of public issues, one can appreciate Xcel Energy's interest in having a "fresh face" to serve a facilitator of the public input meeting. Kim and Jane have played such a role for colleagues in other communities, and Jane is asking University of Wisconsin-Extension colleagues who are experienced facilitators if they would be willing to serve this role for the second set of meetings. Fariba Pendelton, University of Wisconsin-Extension Community Resource Development agent for Douglas County (Superior, WI) is well qualified and willing to serve this role if the meeting date is available on her schedule.

Because the information that will be presented at the public meeting on the results of the Remedial Investigation is more an elaboration of previous results than a presentation of new results, it is possible to devote part of this meeting to "setting the stage" for the subsequent public input meeting. Much of the new factual information can be summarized in fact sheets and press releases. Most of the implications of the degree and extent of contamination have been discussed at previous meetings. Part of the meeting can be used to summarize public plans and needs for the lakefront and Chequamegon Bay. There also can be a brief summary of the feasible remedies for the site.

The public input session (the second set of meetings) will solicit community identification of the characteristics of a publicly acceptable remedy. The key points from the previous meeting will be summarized

briefly, and participants will be told NOT to list any of the other eight criteria that already are required to be evaluated (protection of health and environment; compliance with existing laws; long-term effectiveness; reduction of toxicity, mobility & volume; short-term effectiveness; implementability; cost effectiveness; state acceptability). Examples of characteristics that might emerge from the public input meeting are "consistency with the city's waterfront development plan," "minimize disruption of waterfront use and traffic during the peak tourist seasons," "complement ecological restoration of aquatic habitat" or "minimize future restriction of potential future use and development of the lakefront." The last step of the meeting would be to group and to rank (roughly) the key characteristics of remedies acceptable to the community.

The community input meeting should be scheduled no later than late April to mid-May in order to attract the best possible attendance. Once spring arrives in the north, community members use every opportunity for outdoor activities during late afternoon and evening hours. The chances of attracting a wide range of perspectives at the meeting decrease considerably after the beginning of May.

These results should be summarized and distributed to the community in fact sheets and press releases after the meeting. They also should be included in the feasibility study and should be addressed in the evaluation of remedies. Doing so is important for the public participation process to be credible in the eyes of the wide range of community members who are concerned about the lakefront and the bay.

The nature of characteristics identified and ranked at the meeting obviously depends on the range of community interests participating in the process. The main result of the session will be to identify the scope of issues that should be addressed in the evaluation of remedies. There will be additional opportunities for the public to express their perspectives about the characteristics of of acceptable remedies. The third meeting on the Feasibility Study should allow plenty of time for additional community input and comment.

Subject RE: Ashland Ad

To Briana Bill

I think that it looks good. I am a little uncomfortable about sending people to the tribal offices because they tend to move and misplace the reports. I'll check with Rae Ann Maday to see if they would want a copy for public review in her office. The logos made it.

Mr. Jaskowiak, I'm sorry there's been in delay in my response; somehow your message got caught in the spam folder. At the EPA/DNR Oct. 17 public meeting, the issue of odor in the neighborhood was raised by several residents and walkers (including the mayor). Henry Nehls-Lowe with the Department of Health and Family Services agreed at the meeting to follow up on the concerns raised. I'm not certain of the details, so am asking him via this message to follow up with you directly. (By the way, neither Xcel nor EPA have sample kits for residents -- Henry mentioned at the meeting the possibility of providing the city or county sample kits; perhaps that's what you heard.)

As far as the sheen, the EPA/DNR/DHFS team is well aware of it. Unfortunately, until the contamination is cleaned up, residents can expect to see it during certain weather and lake conditions that kick up the contaminated sediment in the bay. Department of Natural Resources has set up signs along the waterfront walkway and put bouys in the water, as we don't want boaters inside the marked area. Anchors can stir up the sediment and people could get coal tar on their skin if they got out of the boat.

I'm very sorry to hear about your mother and your aunt. Henry Nehls-Lowe will be able to talk with you further regarding any possible connection between their cancers and site contaminants.

Thank you for contacting me. Pls don't hesitate to contact me if I can of further assistance. Bri

Ashland Superfund Site

Hello,

We missed the latest meeting 2 weeks ago but after hearing that no air monitoring was done I am concerned about that. I think air sampling monitors should be provided to residents affected in that area which would include us. We live at 121 North Willis Ave, on the corner of Willis Ave and St Claire St.

I've complained to the mayor this summer of the foul smell coming from the site. I even seen the sheen on top of the water.

What can you tell me about home air sample kits provided by Excell or EPA?

Thank you,

Don Jaskowiak

Also, after talking to friends, we come up with alot of folks who have died of cancers who have lived within 6 blocks of the comtaminated area. My mom included who just passed this April. My wife's Aunt has a short time to live and she also lived near the area. She lived on Water St, by the Oredock.

Subject Ashland Update

- Mike Bebeau will be arranging for soda at the meeting on Thursday. DNR will pick up the coffee.
- Duane Lahti suggested that Nancy Larson clarify the roles of agency staff as listeners and not as participants in the process
- I left a message with Brian Knapp to bring copies of the waterfront plan.
- The press release went out yesterday.
- No response from Chad Daily but staff indicated that info on the meeting was in the paper.
- I am not available on Thursday morning to review the presentations. If Scott is going to cover the other 8 criteria he needs to explain each of them in more detail than at the first meeting.

Bri,

I now need to make sure the information gets out on this. I expected the reporter to at least mention this in last week's article, but it wasn't. Other than putting up the flier at the info kiosks and having the Ashland County Health Dept put out a media release, do you any other suggestions on how to get this out?

Subject RE: Conference call to discuss follow up to public informational meeting

I am driving to pick up my son from college on Wednesday and Thursday. I should be at a stopping point by 3:30-4:00p.m. on Wednesday. Could we have the call a little later? Also, I can be available tomorrow (Tuesday, 11/13/07) at 3pm. Do either of those times work?

I also unrolled the big poster to check whether the missing two dots were hidden in any folds. I found them, and the updated spread sheet is attached with all 180 dots listed.

Take care,

Kim

Subject: Community Acceptability results

John,

Attached are the results from the October 25 community brainstorm meeting. I counted 78 dots, which means there were two dots that did not make it to the final count somehow and that 16 people voted.

I arranged the concerns into an evaluation hierarchy. Some appeared to me to emphasize specific dimensions of existing criteria, e.g., "do it right the first time."

If this looks O.K., please forward it to the others. I'm out of town until Wednesday.

Take care.

Kim

2) I've firmed-up my travel plans and it looks like I'll have two possible times when I could meet with you to talk about this a little (shouldn't take more than half an hour). Would you be free either on

Thursday at about 11:00 or 11:30 am (I land at O'Hare at about 10:00) or on Friday at about 8:00 am (my return flight departs O'Hare at 11:00)? Let me know.

----Original Message----

From: Melodia.Craig@epamail.epa.gov [mailto:Melodia.Craig@epamail.epa.gov]

Sent: Wednesday, July 15, 2009 1:50 PM

To: Graff, Daniel A - DNR Subject: Xcel Proposed Meeting

Dan: Dave Crass sent me an email requesting a meeting with EPA and DNR in Chicago next Thursday or Friday. Dave's email just said there's been a lot of activity since our last meeting in May and they want to preview Xcel's comments on the Proposed Plan. I will ask for a more detailed agenda, but am fine with us meeting to discuss the Plan.

Scott Hansen has coordinated with Jamie and I understand John is not available on Friday, so the proposed date would be next Thursday morning (probably a 9 or 10 am start). I know there's a technical meeting in Madison the morning of Wednesday the 22nd, so I may also suggest that we conduct this meeting could take in Madison on Wednesday afternoon. Perhaps Crass is unavailable that afternoon, but that would seem like the most logical day and location for the meeting since most everyone will be at the morning meeting. If Wednesday afternoon or Thursday morning does not work,

Scott and I are available the week of the $27 \, \mathrm{th}$ on Tuesday, Wednesday or Thursday.

Please let me know which dates work for you and of course you can always join by phone if that's the best option for you.

Thanks,

Craig (312) 353-8870

Subject Meeting Room on Sept 17

There is a change in location for the meeting on the 17th. I reserved the Lake Erie room on the 12th floor in our conference center from noon to 4. The phone # for the room is (312) 886-5358. I'm not sure exactly what time Xcel plans on showing up, but will confirm. They did tell me that their attendees will be Steve Leifer, Crass, Winslow, Kristin Carney (new Xcel in-house counsel), and Steve Laszewski (Foth dredge consultant). Please let me know how many are calling in (I have Dave Mount confirmed for as a call-in) and if need be I will get a conference line. Thanks

7th?

Craig,

I got a minute of John Robinson's time and he's open to the meeting the week of Dec. 7th as we discussed. Even better, he will be in Madison on Tuesday the 8th

and Wednesday the 9th, so those would be good days if we wanted to rendezvous in Madison. More later, and hope your meeting with Scott and Becky goes well.

1:00 it is.

I can pull in up to 4 outside lines from my phone at no cost, so if Bill and John come to my office, I'll call Jamie and Region 5.

Scott and Craig, let me know what number[s] to call.

Craig:

OK, let's try to have a conference call some time Wednesday Dec. 9th., between the hours of 10 and 2. I'll need to check with John and Bill for their further availability, but hold those 4 hours for now if you can and we'll define it further.

Craig,

I got a minute of John Robinson's time and he's open to the meeting the week of Dec. 7th as we discussed. Even better, he will be in Madison on Tuesday the 8th and Wednesday the 9th, so those would be good days if we wanted to rendezvous in Madison. More later, and hope your meeting with Scott and Becky goes well.

Ok, sounds like the 21st works for everyone but Gary. I'll let Xcel know the meeting will be on the 21st starting at 10 am. We can plan to have a pre-meeting at 9 am and hopefully Tom can get to Chicago in time. I am flying back from vacation in Mexico on the 20th and hopefully will not have any problems, but will be out of touch the week of the 14th so if we need to discuss the report it will have to be the week of June 7th. I will also invite the state to attend the meeting on the 21st. If anything comes up please call me

Subject Ashland Meeting on June 21

All, The meeting with NSP on June 21st to discuss the allocation report will take place in the Lake Ontario Room on the 12th floor of our offices at 77 w. Jackson Blvd. The meeting starts at 10 am, but if we can meet at 9 that would be great. Christine Carney said they will have a powerpoint presentation and that it should not take more than 2 hours, but if we have reviewed the report and want to have a discussion it could be 3 hours. I have the room until 4 so EPA and DNR can have a second meeting to discuss the ROD and Tom is of course welcome. We received a hardcopy of the report this week, but no electronic. DNR was not included on the cc list. Dan, Gary Steinbauer will mail a copy to you if you let him know where to send it. Thanks and see you all on the 21st.

Dan: Thanks very much for the additional info and I do follow your reasoning under state law. It may be difficult to set something up for next week (unfotunately I don't think any of the days and times you suggest work for me). I'm back full-time after the 4th holiday and perhaps we could shoot for the week of July 6th? I will check with Tom and Pete about the 7th, 8th or 9th if that works on your end.

Thanks again,

Craia

Subject Re: FW: City of Ashland Involuntary Acquisition and

Exemption from Liability

Hi Dan: Just checking whether tomorrow works for you all still. As of last week you said after noon tomorrow worked for your group, but was wondering whether it still works and if there's any way to do it earlier. In the alternative I'm available Thursday, but that was not one of the days you had listed that worked for you. Unfotunately I'm out Friday and Tom is not available next week. I know you have a deadline Exemption 5 - Deliberative Process Privilege

Thanks very much,

Craig (312) 933-8532

Craig: As mentioned in the voicemail message I left for you just now, we don't find a letter discussing BNSF following the Supreme Court's decision last year. I know we did discuss it at a meeting we had in Chicago in 2009 after the opinion was released, but the only discussion of the case in correspondence (beyond the letters you mentioned you already have) is the attached (which I don't think was what you were recalling).

Please call me when you have the opportunity.

Dave Crass
